Dear Parents and Caregivers,

The Digital Education Revolution (DER) Laptops for the Year 9 cohort of 2010 arrived at school recently.

On Monday 3rd and Tuesday 4th May 2010, students will be withdrawn from classes to assist the Technology Support Officer to commission their new machines.

However, students will not be issued with their laptops at this time.

Parents and caregivers of Year 9 students are invited to attend an information session and briefing in the Library on the evening of Tuesday 4th May, commencing at 6.45pm prompt.

We strongly encourage you to attend, as we believe it is vital that both parents/caregivers and students gain a clear understanding of the program and of the rights and responsibilities of a ‘Digital Citizen’ in the 21st century.

There will be a short presentation and the laptops will then be issued to students.

Only students who have returned their “Laptop User Charter”, (which has previously been given to students for completion), and whose parents/caregivers are present will be issued with a laptop on the night.

We look forward to meeting with you on the evening as we begin a new and exciting initiative for students at the school.

Mark Watson
Principal
